ELECTIONS IN GEORGIA.
THE COUNTIES, CITIES AND TOWNS
CHOOSING OFFICERS.

Griffin, Hartwell, Lawrenceville and Other
Places Changing Officers—Interesting News
Item Gathered by the Constitution
Correspondents, Etc.

LEXINGTON, Ga., January 3.—[Special.]—The election for mayor and councilmen for the ensuing year resulted as follows: J. Sim Moon, mayor; Geo. C. Smith, recorder and treasurer; William Goulemer, O. H. Arnold, W. B. Lester, J. M. Paul.

The Hartwell Election.

HAZEL, January 3.—[Special.]—The election for town council to-day resulted as follows: W. B. Bell J. P. Shadick, O. Hardy, Geo. M. Reed, J. L. Hill, attorney for old constables; T. E. Williams. The term of office will begin again in January. The term covers twenty-four degrees Fahrenheit.

The Stone Mountain Election.

STONE MOUNTAIN, January 3.—[Special.]—The following is the result of this day's election held at this place:

For justice of the peace: Colonel L. A. Sirms, 136; J. T. Sheppard, 141; William Lanford, 107; R. J. Hadden, 81; J. H. B. Mattox, 72.

election at Waycross.

WAYCROSS, Ga., January 3.—[Special.]—Waycross held her municipal election to-day. Howard C. McDonald was elected mayor with his running-mate. Notwithstanding it was exceedingly cold and rained this morning, the heaviest vote ever polled was that of to-day, and with the new year dawns a bright municipal future for Waycross.

Upon For Prohibition.

THOMASTON, Ga., January 3.—[Special.]—The municipal election there to-day resulted in the triumph of the prohibition ticket by forty-five majority. This places Upon on the list of prohibition towns, as the county commissioners refuse to grant license in the county outside of Thomaston.

The Fairburn Election.

FAIRBURN, Ga., January 3.—[Special.]—To-day's election resulted as follows: For mayor, A. J. Vickers, 67; Colonel George I—, 22; S. P. Harvey, E. P. Chapman, J. A. Vickers and S. H. Eason, 10; W. H. Eason, 10; W. H. Eason, 10; W. E. Eason was elected justice of the peace and S. W. Reynolds and W. S. Harvey constable for the 1,134th district, G. M.

The Election in Spalding.

SPALDING, January 3.—[Special.]—The elections for justice of the peace and constables excited a good deal of interest to-day. The following were the candidates for justice of the peace: C. R. Jenkins, J. C. Collins, and G. G. McDonald. The candidates for constables: C. Little, G. R. Dooley, David Brown, R. E. Mann, H. H. Hobbs and Indley Thomas. The result was as follows: Jenkins was elected justice of the peace for 79; Dooley, 10; Brown, 10; Mann, 10; Hobbs, 10; Indley Thomas, 10. The negroes were elected constables. The negroes voted solidly for Thomas, and they are jubilant over what they consider a victory.

The Cuthbert Election.

CUTHBERT, January 3.—[Special.]—The following municipal officers were elected: Mayor, George McDonald; councilmen, S. H. Freeman, S. H. Gamble, J. C. T. Sheppard, R. D. Collier. The list is full of candidates for constable offices. The election on next Tuesday will disappoint many; the offices won't go around. The indications are that the present incumbents will be retained.

The Cave Spring Election.

CAVE SPRING, January 3.—[Special.]—Our village had more than usual excitement over the yearly election for mayor and town council. The following gentlemen were elected: D. B. Thompson, mayor; John F. Hight, W. H. Sewell, R. L. Wharton, W. P. Trout, L. J. Jones, Sr. The weather is intensely cold, everything frozen up to day.

The "Hog" Ticket.

SYLVANIA, Ga., January 3.—[Special.]—The election for town council came off to day. There were two tickets in the field. The question in regard to electing the hogs from town was made an issue. The vanquished party declares that their opponents "eat the hog" on them. The following was the ticket elected: Mayor—L. Singletown, Councilmen—J. C. Bell, W. Hobby, P. Lovett, Jr., C. J. Overstreet, and F. P. Scott, Jr. Recorder—M. Potter.

The Naboo Triumph.

ANGELA, Ga., January 3.—[Special.]—The village of Summerville, near Augusta, held an exciting and close election to-day for mayor and commissioners. The present incumbents, Henry F. McCord, formerly with Messrs. J. A. & T. D. Stewart, of this place, is now connected with Messrs. Fuller & Son, Atlanta, as their traveling agent. Much success to him, for he deserves it.

Knights of Honor.

MILNELL, January 3.—[Special.]—The following are the officers for the year 1885, of Milnell lodge No. 3,111 Knights of Honor:

J. L. Reld, past dictator; J. F. M. English, dictator; B. D. Martin, vice dictator; W. J. Mullins, asst. vice dictator; W. J. Mullins, asst. vice dictator; M. A. Murphy, financial reporter; J. L. Perdue, treasurer; D. W. Perdue, guide; J. L. Duncan, guardian; J. F. Beasley, chaplain; W. D. Wills, P. F. Farley and J. E. Tyus, trustees; G. P. Ferguson, sentinel.

A Blind Hard-Shell.

TALLAHASSE, January 3.—[Special.]—There is a blind Baptist living in Rabun county 101 years old. He calls his neighbors around him nearly every Sunday and preaches a sermon. He is a hard-shell Baptist, and believes in the doctrine that "the blind lead the blind."

The ravens in the caves and the Tallahus are greatly disturbed from some unknown cause, and are incessant in their hideous cries.

Three prisoners broke out of the new jail at Clarkesville last night. They were committed to the telegraph wires up from Tallulah to Atlanta, a station twelve miles distant.

The telegraph wires are up from Tallulah to Atlanta, a station twelve miles distant.

General Robert Toombs refused during the war to be a member of the Constitutional Convention to which he had been invited, to the great regret of the South.

Misses Ella and Mollie Doubts and Miss Nelle Stovall, of Athens, are on a New Year's visit.

Home Notes.

ROME, Ga., January 3.—[Special.]—The election of justices of the peace and bailiffs for the Rome district was held to-day. George Harris was elected justice, and F. M. Carnicle and E. Z. Treadaway bailiffs.

The locks on the Coosa river will be flushed by Friday. After that time, the East and West and Georgia Pacific roads will be required to place grates in their bridges which cross the Coosa.

Athenus News.

ATHENS, Ga., January 3.—[Special.]—Yesterday J. C. Fliner sold out his stock of goods to Mr. S. Cooper, who will take possession at once. It is understood that the purchase is made by Mr. Key, of Harmony Grove. Mr. Fliner is the oldest merchant in Athens, and we hope to see him on his harness. Mr. Key, however, is an active, energetic young man, and we predict for him a bright future.

Captain Carlton purchased not only Mr. Mock's farm, but the stock, machinery and implements on the place, the entire house and kitchen furniture. Mr. Mock carries off only his wearing apparel. There are some fine regiments among the cattle. Captain Carlton will take his place in the firm of Thomas and Thomasville; his friends in Athens are inclined to the opinion that the letter was intended as a joke to the writer.

\$17,000 Failure in Augusta.

ATLANTA, Ga., January 3.—[Special.]—O'Donnell & Banks, large brokers, assigned to-day to R. H. May, the Atlanta banks are preferred creditors, and second mortgages are granted to the families of the firm.

Changing Business.

LEXINGTON, Ga., January 3.—[Special.]—The firm of Stokely & McElroy, of Crawford, dissolved partnership on the first. Mr. J. C. O'Donnell of the firm, having bought the entire interest, and will continue to carry on the business. He is one of the best business men in the country.

Mr. George Washington Brooks has been engaged as clerk for William Goulemer for the year.

Changing Business.

JEFFERSON, Ga., January 3.—[Special.]—The merchants of Harmony Grove have changed their firms and names of their business, and hardly recognize them. Business has been good on collections with the merchants much better than they expected in the early fall they would be. The prospect of keeping the wool from the door for the incoming year is, however, rather gloomy with many of the smaller planters. The weather for several days has been dark and damp, and has had its usual effect on the spirits of the people. Your editorial to-day on General Grant will meet a hearty response from the boys who were the great

Tripping the Light Fantastic.

CONYERS, Ga., January 3.—[Special.]—Last night at the Whitehead house, the first ball of the season came off with great eclat. The young people assembled and enjoyed the light and gay music to all manner of taste. The town and country grand the occasion. The following ladies and gentlemen were present and participated in the merriment: Mrs. Fannie C. Shoffield, M. Ga., Miss Mary Hargrove, Starsville, Ga.; Miss Hattie Anderson, New Berlin, Ga.; Miss Ada Mann, Americus, Ga.; Mrs. Jones, Nora Turner, Lea Hudson, Mrs. Treadaway, Mrs. Flora, Mrs. Price, Fannie Shoffield, Mrs. T. H. Bryant, Mrs. J. A. B. Stewart, J. E. Morris, J. F. McCollum, T. E. Simms, E. M. H. Morris, C. H. Hinson, B. D. Crossly, R. J. Crossly and M. C. Summers, Ch. Ga.

Griffins Notes.

GRIMES, Ga., January 3.—[Special.]—There was a pleasant and interesting party at the Nolm's residence. The costumes were varied and pretty. The ATLANTA CONSTITUTION was nicely represented by Miss Mary Hall.

Mr. Powell's carriage and horses, that ran away the night before, were found yesterday in a grove near the city. The carriage wheels were broken, quite a large number of citizens are visiting Seaville this week.

Adairsville Notes.

ADAIRSVILLE, Ga., January 3.—[Special.]—Our town has been quiet during the last week. Last night a party of young people met at Dr. J. H. King's and all express themselves as having "had a fine time out." Dr. and Mrs. K. know how to make you enjoy yourself.

Miss Little Woodberry, of Augusta, is spending some time with a retired citizen, J. Branch. To-day is the election of justice of the peace and a trial.

New Years in Marietta.

MARIETTA, Ga., January 3.—[Special.]—New Year's calling here this year was very enjoyable. A hearty grasp of the hand and a bright welcome smile made it more like the reunion of old friends, even like the "peep" calls usually made to me by you dear ones.

Miss Little Woodberry, of Augusta, is spending some time with a retired citizen, J. Branch. To-day is the election of justice of the peace and a trial.

Competitive Drills.

DAWSON, Ga., January 3.—[Special.]—Messrs. J. Stevens & Co., of Atlanta, have presented to our military fair a number of elegant pieces of silver and watches, and also a very handsome gold medal to be awarded to the best drilled man in the State. The medal will be given to the best drilled company.

The old year was brought very quietly to a close by our citizens, and but little note taken of New Year's day, except in the way of family reunions and social gatherings.

The usual watch night services were held on New Year's eve night by the Methodist church.

Marietta.

MARIETTA, Ga., January 3.—[Special.]—Last night the "A. G." social club gave a most delightful entertainment at the residence of Mr. John Bradley, who lives about a mile and a half from here. It was a masquerade, the costumes to be made of cotton cloth.

After dancing, the guests were invited into a most sumptuous repast. After supper dancing again, and the party adjourned to the ballroom, where they will long remember with pleasure this most delightful entertainment. Below is a partial list of contestants:

W. H. Clegg—Boston, Queen Anne.

Mrs. J. H. Christian—German Peasant.

Miss Alice Cleland—Highland Lassie.

Miss Lucy Cleland—Snow Storm.

Miss Mary Cleland—Peach Peasant.

BILL ARP'S VIEWS

ON THE TRAINING A BOY GETS IN COLLEGE.

Distressed Labor and Looking Out for a Livelihood by Disturbing Other People's Business—Mr. Cable's Errors in Dealing with the Exceptions of the Negro Race.

It is right, I know, for a man to be conservative and tolerant and respectfully considerate of other people's opinions, but how can a man be so and take the papers. When he reads the nonsense of men claiming to be educators he gets disgusted with fools, and when he reads the venomous lies and slanders of politicians he is equally disgusted with knaves, and so between the two their utterances in the public press keeps him vexed about half the time.

Nevertheless, it is the duty of a good citizen to keep up with the age in which he lives, for he can do something, and it is his duty to read and be prepared for coming events and raise his voice on the right side. It has been a great disappointment that her people have not read enough and were not impressed with their ignorance; but they are waking up now, and you can hardly find a family in this region that does not take some paper. I mix with our common people a good deal and I know families who take a paper for the children to read, although the paper is not good. This is all right, and it is encouraging. After a poor farmer boy has learned to read and write and cipher, he can get a right good education from the papers, and he can get it cheaper than any other way. I would rather my boys would depend on three or four good papers, than on fifty dollars worth of Latin and Greek and algebra and geometry. The world will be of more benefit to him in the practical business of life. Of course, if he is to be a professional man, he must study the sciences and go to college, but it is a hazard—a great hazard—to send a boy to college, as the boy is not yet a man. Four years at school and four more at college takes eight of the best years of a boy's life, from 12 to 20, the very years that his physical system needs physical exercise and physical training; the very years when his habits of life are set and fixed; the very years when he should mind his business and let his brain and his muscle all work together and sustain each other. College habits are habits of physical indolence. A college boy has no education to work anything but his brain when he comes away, and looks around for business. His physical and other work he can't stand it. His habits are fixed and habits are as binding as fetters, and he sees no agreeable opening except the law or medicine or politics, and so the land is full of quacks and pedituggers and small politicians who affect the people and do no good for the country. The small lawyers and slave drivers and watch for striking a man with a buzzard watch for a carcase. They nurse and encourage all sorts of petty litigation. The doctors gallop off to see a sick patient and keep him sick until it takes his little crop to pay the bill. The politicians get all the news in the newspapers and slander one another and the people don't know who to vote for, and they don't care. And so it goes, and it would have been better, far better, for the whole batch to have stayed upon the farms and married clever country girls and gone to raising children and chickens in an honest and honorable way. Now, if I say it, the college boys would go to farms, and the people would see the boys go to college, for the higher the education the more refined is the happiness that knowledge gives and the better farmers they would make, but they will not. And for this reason I have never favored the higher education.

His race is physically ordained for labor, numberless and he likes it. A college boy is his utter ruin as a man and as a citizen, and no one comes from a gentle African vagabond. I received a letter from one of them in Atlanta the other day that was full of pride and contempt for the negro race, and he likes it. Fred Douglass and Senator Bruce and all the colored men of note are among them. The barbers of the south are the men, and almost without exception they are a law-abiding, intelligent and well-mannered class of citizens, and in respect for them, for their stand well to their business, they are entitled to more respect than some of their countrymen. Mr. Cable seems to think that justice to the negro requires us to think with them on equal terms in our churches and schools and caravans and theaters, and this shows his utter ignorance of the negro race. He will tell him almost uniformly that they do not want to mix. They want equal privileges, but they do not like to mix. The race instinct is against it. Your recent editorial on this subject was admirable and most true, and the remainder to say that the philosopher or philanthropist under the sun, like those who were born and bred with and the negro knows it. He has today no respect for the old masters than for his so-called northern friends. When he feels fully assured that the democracy does not mean slavery or separation but an enlarged role upon northern politics or northern promises, and protection he will no longer rest upon his own people, and will quietly affiliate with his own people. We are getting along very well together now, and I think some of our abstractionists are attacking too many important to the race problem.

It may be a serious problem for our children, and my faith is they will be prepared for it. It is said they are increasing more rapidly than the whites. I have never believed it and I put no trust in the census that reports it. The birth rate may be as great, and the death rate is at least three to one. Our city records prove it annually. They do not mean like Douglass and Senator Bruce as good care of their children. But suppose they are increasing more rapidly. It does not follow that they ever will or ever can control the country or its government. A few men control it, now, and the many—money and property control it, not law. With money controls us all, whether we know it or not. Money is the lover of Archimedes and the negro who never has it because he does not want it. It is not his nature to accumulate. He lives and toils for his present good. A few do acquire property, but only a few, and that proves the rest are not fit to be masters. He cannot accumulate if he would, because he has no money. For arts and the tricks of trade by which most of our race get rich. The negro rarely cheats or deceives anyone in a trade. He is frank and open and does not know how to plot a fraud or conceal it. In all this I admire him, for he is unlike the white man, who says, "He sticks close to the joints between the bony and the sinewy," but he means it for the Jew, and it is true of the Gentile, but not of the negro. The negro

will steal, for that is an instinct of his race and he cannot help it, but he will not steal more than his inclination that way is limited, but when a white man steals the more he gets the better satisfied he is.

Well races are races, and we must study them. This study will teach us that the African, the black negro, was by nature and nature's God created and fitted for labor rather than for college or the theater or the fine arts. But let the experiment of high civilization go on. Let us try it another twenty years, and perhaps the problem will be solved. In the meantime let Mr. Cable possess his soul in patience, and I hope the New York Tribune will learn in due time why it was that one million of the nation's wards failed to vote for Blaine in the last election. The editor of the Tribune is a wise man, and I hope he will be able to find the answer. Well, we give it up. Why don't we ask the words? As the Scriptures say, "He is of age, ask him." I told John Thomas, the other day, that one of his Yankee friends up north wanted to know why he didn't vote for Blaine, and he stopped short and looked surprised, and said, "Well, boss, what's he got to do with it?" And then asked another question, and he said, "Gosham, boss, I didn't know he was a runnin'."

GEORGIA IN FLORIDA.

A Few Men Who Went From This Vicinity to the Land of Flowers.

From the Columbus, Ga., Sun.

Within the past three or four years several prominent gentlemen have gone from Columbus and vicinity to Florida, and embarked in the orange growing business. Undoubtedly a few more will go in next like this and go to a comparatively new country to grow up with it, their hats generally grow to a sharp point, breeches grow thin, and they are soon glad enough when they find money sufficient to get back to the old home. But the men who have gone to Florida from this section don't belong to that class. They are business men and made money here and will do the same wherever they go. We don't advise people who are doing well here to go anywhere else, but when a thoroughly energetic man thinks he can better his fortune in a new field of labor and goes to college, it is a hazard—a great hazard—to send a boy to college, as the boy is not yet a man. Four years at school and four more at college takes eight of the best years of a boy's life, from 12 to 20, the very years that his physical system needs physical exercise and physical training; the very years when his habits of life are set and fixed; the very years when he should mind his business and let his brain and his muscle all work together and sustain each other. College habits are habits of physical indolence. A college boy has no education to work anything but his brain when he comes away, and looks around for business. His physical and other work he can't stand it. His habits are fixed and habits are as binding as fetters, and he sees no agreeable opening except the law or medicine or politics, and so the land is full of quacks and pedituggers and small politicians who affect the people and do no good for the country.

First, there is Mr. J. N. Embry. Some three or four years ago he purchased an orange grove near Leesburg, Fla., for which he paid \$10,000. He has since made a good deal of money and has made a bad investment and expected him to lose the savings of a life-time in this one venture. Mr. Embry is a shrewd business man, however, and he shook his head at the predictions of his friends and held on to his predictions. It was not many months before the orange crop was ripe, and when he brought them for \$3,000, he was offered \$5,000 for his orchard. He declined the offer and today he is not right.

Next, we might mention Dr. E. C. Hood, who two or three years ago caught the Florida fever and invaded the land of flowers for the purpose of increasing his fortune. He made purchases of land in Marion county, and has a beautiful home amid the lakes. The doctor is delighted with the country, and to-day would hardly part with his possessions there for several times their cost.

Mr. John T. Peeler, Sr., and his son-in-law, Mr. John Hamilton, furnish further evidence of what men are willing to work to accomplish. The doctors gallop off to see a sick patient and keep him sick until it takes his little crop to pay the bill. The politicians get all the news in the newspapers and slander one another and the people don't know who to vote for, and they don't care. And so it goes, and it would have been better, far better, for the whole batch to have stayed upon the farms and married clever country girls and gone to raising children and chickens in an honest and honorable way. Now, if I say it, the college boys would go to farms, and the people would see the boys go to college, for the higher the education the more refined is the happiness that knowledge gives and the better farmers they would make, but they will not. And for this reason I have never favored the higher education.

His race is physically ordained for labor, numberless and he likes it. A college boy is his utter ruin as a man and as a citizen, and no one comes from a gentle African vagabond. I received a letter from one of them in Atlanta the other day that was full of pride and contempt for the negro race, and he likes it. Fred Douglass and Senator Bruce and all the colored men of note are among them. The barbers of the south are the men, and almost without exception they are a law-abiding, intelligent and well-mannered class of citizens, and in respect for them, for their stand well to their business, they are entitled to more respect than some of their countrymen. Mr. Cable seems to think that justice to the negro requires us to think with them on equal terms in our churches and schools and caravans and theaters, and this shows his utter ignorance of the negro race.

Well, that darky has been to college and is not doing very well, but the darky with Mr. George W. Cable is that he does not consider the negro as a race but lets his large philanthropy consider them individually. He finds a case where a negro became an expert from having the advantage of a high degree of culture, and he makes him a type of the race, and puts a demand upon us for a life-time of service. The negro has been educated here, a few years ago, was exhibited over the south, and could play cards, and tell the time of day upon a watch, but I don't think it follows that we should, therefore, educate all the hogs in the country. The exceptions always prove the rule. No negro has made any progress in art or science or politics, or the pulpit, except those who had Caucasians blood in their veins.

There are several other cases which might be mentioned, but these are sufficient to show that a man who goes to a growing country determined to work will grow up with it. It is a different thing when a man goes and expects to find "money growing on trees."

OH, DEAR, HOW ROMANTIC.

Victoria Morosini Gained Her Ernest by a Transfusion of Blood.

Boston Dispatch to New York World.

Notwithstanding the many volumes have been written and published along the famous Morosini clasp case and various explanations made as to how the lady became infatuated with her father's coachman the real facts were never brought to light until they were obtained by a reporter of the *Times*. Mrs. Schilling, the reporter is remarkable one. Mrs. Schilling, he replied to the question, "What is the secret of your success?"

Another gentleman who is reported as another success is a fair share of the credit with the state of oranges is Mr. James W. Kimbrough, formerly of Hamilton. He had passed the meridian of life when he went to seek his fortune in a new country, and the reports he made on his progress were the brightest news expressed in one of my letters and he demanded the name of that Boston traitor as he called him who said he pitied us when he saw the ignorant horde that had been entreated with the ballot.

Well, that darky has been to college and is not doing very well, but the darky with Mr. George W. Cable is that he does not consider the negro as a race but lets his large philanthropy consider them individually. He finds a case where a negro became an expert from having the advantage of a high degree of culture, and he makes him a type of the race, and puts a demand upon us for a life-time of service. The exceptions always prove the rule. No negro has made any progress in art or science or politics, or the pulpit, except those who had Caucasians blood in their veins.

The cross does well for a time, but it is nature's last effort, for nature abhors it, and from the unnatural union comes a feeble posterity, and after the first generation some of the children are weak and never grow to a man that winds along the banks of the beautiful Hudson river. From one point on that road the runs up to a high mansion, and he was take to her who she could see and learn a man's sides the wheel and the loom. She had made good use of her time at school and was like her mommy said she could "read" geography from South America to Bottom Bay."

She had been to see the rich men in New York, and was a man of the world, and although she loved him and his family being with me, or else the sign marked "Dangerous," which was nailed to a tree in front of her home.

"But this day I was alone and determined. Ernest drove and notwithstanding his entreaty, I sprang out of the carriage and was soon peering through the bushes, and I found myself with a stick I pushed aside the vines and creepers that overhung the open door, and stood there in the dark, and I heard him say, "I have a secret to tell you." I was afraid to go in, and he said, "Come in, I have a secret to tell you." I was afraid to go in, and he said, "Come in, I have a secret to tell you."

He thought she had never married Ernest Schilling, but she had, and he had told her that he loved her, and she was smart and she was a good girl, and when tothers was down hearted she could alays say "I am here for you." I was afraid to go in, and he said, "I have a secret to tell you." I was afraid to go in, and he said, "I have a secret to tell you."

She had been to see the rich men in New York, and was a man of the world, and although she loved him and his family being with me, or else the sign marked "Dangerous," which was nailed to a tree in front of her home.

Ernest drove and notwithstanding his entreaty, I sprang out of the carriage and was soon peering through the bushes, and I found myself with a stick I pushed aside the vines and creepers that overhung the open door, and stood there in the dark, and I heard him say, "I have a secret to tell you."

He thought she had never married Ernest Schilling, but she had, and he had told her that he loved her, and she was smart and she was a good girl, and when tothers was down hearted she could alays say "I am here for you." I was afraid to go in, and he said, "I have a secret to tell you."

THE RAILROADS.

SNEY WITHDRAWS HIS RESIGNATION.

Suite Against the East Tennessee Road
Traffic Alliance—The Financial
Report of the East Tennessee Road
The Proposed Water Route, Etc.

NEW YORK, January 3.—At the request of large shareholders of the East Tennessee, Virginia and Georgia securities, and of all the members of the board, G. L. Sney has withdrawn his resignation, and all the differences in the board have been adjusted.

The Georgia Traffic Alliance.

Mr. Charles E. Harmon was in the city yesterday, on his way to Cincinnati, where he goes to assume the position of general northwestern agent of the Georgia traffic alliance.

Very little has as yet been made public concerning this new combination of transportation lines, but it will undoubtedly prove a strong factor in the carrying trade of this section. The Georgia traffic alliance is composed of the Western and Atlantic railroad and the Central system of Georgia. It has agents in Chicago, Kansas City and Jacksonville. Mr. Harmon, as the general northwestern agent, will make his headquarters in Cincinnati and will make there.

Mr. Harmon is confident that under the workings of the alliance freights will be carried in quicker time, and the friction in handling will be greatly lessened. It will be a great convenience to the orange men, mellow growers, truck farmers and all shippers of through freight.

The orange business of this season, Mr. Harmon thinks, will double of last season. One of the largest orange growers in Florida says that his product for this season is 200 per cent larger than the season previous.

THE RAILROAD WAR.

An East Tennessee Official Has a Word to Say on the Proposed Bonts.

A leading official in the East Tennessee railroad system said yesterday that the company anticipated no trouble whatever from the proposed line of boats between Chattanooga and Knoxville.

"If they haul freight from that territory," said this official, "cheaper than we do, it won't pay them one cent, and they are at liberty to compete with boats as soon as they please. People will see it demonstrated."

"We have," said the official, "carried out what we promised the citizens of Atlanta. We have reduced freight coming from Chattanooga and East Tennessee 50 per cent, and it is our intent to do the same in the future."

THE CONSTITUTION,
Atlanta, Georgia.

ATLANTA, JANUARY 4, 1885.

INDICATIONS for the south Atlantic states at 1 a. m.: warmer, partly cloudy weather, and local rains, followed by fair weather, easterly winds, becoming variable.

The Missouri idea has had a whack at New Jersey. The "hold up your hands" act was performed in a train on the Baltimore Central with no apparent lack of success.

Our Washington special indicates a lively time over the fortification bill. As there is only \$6,000,000 difference between the majority and minority reports, some lively debates are apt to follow.

England has been getting some pretty severe digs in the ribs lately on the Egyptian question. It is now charged that she is solely responsible for the present muddle, and a new conference is likely to be called.

The vexed question as to who will wear the ermine as judge of the southern district of Georgia, seems near settlement. It is probable that the president will make the appointment within the next fortnight.

This outburst of enthusiasm over Hon. Samuel J. Randall, from Nashville to Chattanooga, was a just tribute to that great statesman. His reception in Chattanooga was a marked evidence of how he is appreciated.

The drilling of armed companies of socialists in Chicago has put that city on notice of danger. The Times in an editorial strikes the keynote in the method of suppressing the evil, and the authorities should not let the suggestion go unheeded.

The work has commenced around Washington. Night before last a slight shock of earthquake was felt. This is an effective way to shake the rascals out, but it is nothing to the earthquake President Cleveland will cause to rumble on the 4th of March.

It is a novel idea that France should attempt to conscript Frenchmen who have come to America to live. Nevertheless, this is what is being done, and it is no wonder that those who have settled down on American soil and are prospering, refuse to obey this order.

The New Orleans exposition managers are discussing the idea of allowing the great show to take a recess during the coming summer months, with a view to reopening it next fall for another six months. This may not be a bad scheme, and it may save the exposition yet.

The audacity with which defaulting bank cashiers and other thieves announce their intention of leaving for Canada, is again illustrated by the Lexington man. He was \$37,000 short, and left a note saying, "I am off for Canada. Needn't look for me nor the money." Canada seems to be the cashier's haven.

THE CONSTITUTION IN THE NORTH.

The experience of The Constitution in the great northwest is a sort of revelation.

The south has a sealed book to the people of the north. Casting heavy republican majorities, and supporting republican newspapers, they have been persistently misled by republican demagogues. The Iowa State Register has, for example, never yet corrected the story that the "rebel flag" floated from the state capitol, although it knows, if it knows anything, that the story was false. It printed a picture of the capitol dome, (although our capitol has no dome) with the flag flying from it. It has never printed the solemn and official denial of Gov. McDaniel. It wants us to stick, and others to remain deceived.

The Constitution is carrying the truth into the northwest. A few copies found their way into that section, and the cry for "more" came up at once. There is now a daily demand for several hundred copies, and the comments that accompany the orders for subscription are significant. We have printed several, and we submit to you.

Mr. William Quigley, of Wilson's Mills, Cuyahoga county, Ohio, writes:

"I must write to tell you that you print the best paper I ever read. It has more news and more common-sense than any paper in America. I served four years in our army, and voted for Blaine, but I must say you demand more than that we have up here. If a few lines in your paper would be of value in the pine woods of Georgia, if you will inform us at that fall, I think several of us would go down there."

Mr. G. M. Raum, of Hubbell, Nebraska, writes:

"Sample copy received. It is all claimed for it. I enclose price of one year. You ought to have 100,000 subscribers in this great northwest."

A question of such a paper would do away with the deal of the sectional feeling that exists. We understand each other better we love better."

The few things about the republicans that they have felt it necessary to their success to keep up sectional hatred. To do this they have had to slander and misrepresent. They have had to keep the people in the dark. It is the mission of THE CONSTITUTION to enlighten the people. It prints a map of the doings of this section. It garners the news of the south and puts it into shape. The man who reads it will know the truth of the social, political, industrial and agricultural situation down here. The people of the northwest are demanding THE CONSTITUTION because it teaches them that the south is not filled with murderers and traitors, but with a frank, cheerful and brave people, who quit fighting when General Grant is out, and have been attending to business since."

TRAGEDY AND MYSTERIES.

There is no doubt about it, the whisky ring knows in what hole to sling its glittering bait. It has recently had the honor of catching several distinguished government officials.

It will go very hard with the sunny south if the gallant Harry Waterson is not offered a choice of positions in the cabinet.

In New York, under what is called the civil damage act, saloon-keepers are held liable for selling liquor to an intoxicated person or a habitual drunkard. A large number of suits have recently been brought under this act, and as public opinion is decidedly against the saloon men the suits are brought for large amounts, and the verdicts are for round sums. Adroit lawyers appeal to the temperance sentiment of the jurors, and the widow and children of the unfortunate to argue in court to the effect of their presence to the attorney's appeals.

The saloon keepers are growing alarmed. Under the civil damage act they find themselves in danger of having all their property swept away and their business broken up.

The Blaine organists are right. When Mr. Cleveland declares that no republican shall remain in office who has prostituted his position for party purposes, he leaves the door wide open for genuine reform.

It is thought that Brother Blaine wants to form a new union so as to exclude the solid vote of the sunny south. Very well. The sunny south will be on hand.

There is no danger that the cold wave will reach the Florida mosquitoes.

Now is the time to warm your thermometers.

HALSTADT's "white niggers" are very much indeed. They seem to be very much indeed.

In Dallas, Texas, the other night, a dilapidated individual found himself bordering on the Jameson's for want of a drink. He approached a crowd and proposed to rifle himself off for one year's passage at ten cents a chance. The bystanders took about 100 chances and the Jim Jameson was won by an editor. The winner, at last accounts, had not made up his mind what to do with his prize. The man who was raffled off is said to be the son of a wealthy New York merchant. He is an educated man, but whisky has made him a weakling.

One can scarcely turn a corner these days without running against a drunk. A young woman walked into the office of the superintendent of police in New York, the other day, and stated that he was full of electricity, and had come to have it taken out of his body. He said that some time ago a party of ladies, to have a little fun, filled him full of electricity, and he could not neither rest nor comfort until he was free from it. He had been told that the superintendent of police was the only person who could relieve him. The young man was held for examination as to his sanity.

SYNNES's hole is in the northwest.

It is thought that the combined armies of England and Egypt will arrive at Kharout in time to fit the pulse of the expiring madhu.

MISS MINNIE QUINN, of Atlanta, has a new volume of poems in press. Miss Quinn, as our readers know, is a very graceful writer of verse.

She is young and ambitious, and there is reason to believe that she will eventually take her place among those who have a commission to sing. We should be glad to see the new venture of our young friend meet with the success it deserves.

AN English society for the conversion of the Jews spent \$4,000 last year, and made four converts. A contemporary suggests that at this rate, \$2,000 per head, it will cost a tremendous sum of money to convert the Jews. As a series of experiments were made in Africa, and produced more satisfactory results in Africa than anywhere else. The average cost of converting Africans is \$20 per head. The money expended by the English society on four Jews would have converted eighty-four Africans. These figures speak for themselves.

At a recent meeting of the Minnesotans editors and publishers of the state were recommended to the editor of the editor of the United States and territories to be held in New Orleans, the meeting beginning February 12th. The object of the meeting is to promote the interests of the editorial profession throughout the country. It is proposed to organize editorial excursion parties to attend this convention, returning by way of Washington in time to be present at the dedication ceremony.

The charges against St. John are merely charges. There is, in fact, a remarkable absence of proof in the case. No witness testifies, no documentary evidence is produced.

The editor of the *Globe-Democrat* assert that the prohibition candidate "sold out" to the democrats, after a failure of negotiations with the republican party. Mr. St. John brands the entire story as a lie out of the whole cloth, and the chairman of the prohibition national committee seconds the motion. The latter does not stop at a mere denial, but goes on to charge that the republicans paid certain persons to write letters to influence prohibitionists not to vote for St. John. In the meantime, Mr. St. John is boycotted in his Kansas home, where republicans and democrats are scarce.

The editor of the *Globe-Democrat* assert that the prohibition candidate "sold out" to the democrats, after a failure of negotiations with the republican party. Mr. St. John brands the entire story as a lie out of the whole cloth, and the chairman of the prohibition national committee seconds the motion. The latter does not stop at a mere denial, but goes on to charge that the republicans paid certain persons to write letters to influence prohibitionists not to vote for St. John. In the meantime, Mr. St. John is boycotted in his Kansas home, where republicans and democrats are scarce.

The charges against St. John are merely charges. There is, in fact, a remarkable absence of proof in the case. No witness testifies, no documentary evidence is produced.

The Opera Ho-Deer.

January 2.—[Special.]—Friday night, Professor West's opera, presented at the Academy of Music, is looked forward to by the people with much interest. On the occasion will be many charming surprises and dashes. The following cast will be presented: Daisy Badger; Nootoo, Baby Jane, Lizzie Merle; Mrs. Mary, Miss Fannie Gill, White Thistle; Cookie Shell, Goliath; Silver Bell, Lucy Gartrell; Bobo, Bob; Taffy, Gray Goodwin; Leading Peasant Boy, Muster; Ida Dunlap; Leading Peasant Girl, Emily Shubert; will sing solos. Mr. D. L. Brown will appear in the scenes during the evening. The scenes are specially arranged, and will be introduced by the peasants number, nearly fifty. It is expected that a large audience will be interested in this. It is to be the first one of the night that has ever been in Macau. The music of the occasion will be directed by Miss Jessie Birn, an accomplished pianist.

General Mention.

SON, January 3.—[Special.]—Miss Lula left this morning for Savannah, where she spent a few days with friends.

J. H. Blount left for Washington city to attend his congressional duties.

Lucius M. Lamar, of Hawkinsville, spent the day in the city.

Ed. H. Johnson, of THE CONSTITUTION, spent the day in Atlanta. He is a good man, and never fails to get the business.

He raced a team into the superior court and tore out seven leaves of the docket of the clerk of the court. Colored men in the office of the court were absent. No due has been obtained. A reward has been offered.

Joe J. Blount will enter the practice of law in Hon. Clifford's office. He is a graduate of Mercer, a brilliant young man.

He has offered to day in the office of City Attorney Adams, caused from a defective fence, as promptly put out without any damage being done.

At a service at Christ church Rev. J. R. Witten, the chaplain of the Southern Cadets, will give a sermon to the company—full uniform.

Mr. Thomas H. Henderson assumed control of the office of the E. T. & G. railroad, and will keep it in first-class shape. He is a fine host, and is liked by every one who sees him. A meal will be given.

Some newsmen have a little four-year-old boy, and are fond of THE CONSTITUTION and come for it every day.

J. C. Buckalew, a former Macon boy, recently from Opelika, Alabama, is in town, on a visit of friends.

Ernest Bark at Generalissimo—A Police Officer—Aunt Hort—Other News.

SAVANNAH, GA., January 3.—[Special.]—The man hogs "Ekron" from Bath, was cost of \$1000, and is off the bar with three men sick about ever. It is reported that two of the crew are dead and were buried. The disease is malarial fever. She was towed to-day.

THE GREAT EXPOSITION.

IN CHATTANOOGA.

THE SOUTHERN PITTSBURG LIFTS HER HAT TO RANDALL.

Cordial Welcome Extended by Mayor Hugh Whiteside. Mr. Randall's Tribute to the Mountain City—A Drive Among the Industries—Incidents on the Route.

CHATTANOOGA, Tenn., January 3.—Hon. Samuel J. Randall and party arrived in this city this afternoon at 3 o'clock from Nashville, by special train. The party stopped at the leading cities between Nashville and Chattanooga, and at Murfreesboro and Cowan. intense throng met the train, and Randall was led to the platform and made a few remarks. At all of the towns the train was greeted with cheers. At Stephen, Alabama, a committee consisting of Adolph Ochs, president of the Times Publishing company, Colonel E. A. James, General J. T. Wilder, Hon. H. C. Evans, Col. S. Garnett and Read E. Bokett, met the party and escorted them to the city. When the train entered the depot a throng of nearly a thousand of the leading citizens were assembled and as the crowd divided to let it pass, cheer after cheer rent the air "for Randall and high tariff."

Then the train stopped, Mayor Hugh Whiteside stepped upon the platform and addressed Mr. Randall as follows:

A Tunnel on Fire.

CHAMBERS, Ohio, January 3.—The Bristol tunnel, on the Baltimore and Ohio road, seven miles north of Chambers, is in flames, having been fired by a mob of unknown persons. The large timbers have been consumed, and nearly three hundred feet of the tunnel has caved in. The Newark fire department is at the scene and are doing good work. Guards were run out, and it is believed dynamite was used, as fuses, etc., were found there. Passengers have been transferred. The railroad company will reach nearly \$20,000. A man named James O'Donnell has been arrested on suspicion of abetting those who set the tunnel on fire. It is charged that he was arranging for the explosion, and those who engaged in it were engaged in the company in Licking, Perry and other counties of the state, and cannot be identified. The Hocking Valley line, this afternoon put into effect an order prohibiting the congregating of idlers about their depots and stations. The railroad company has been ordered to make the tunnel safe for the passage of trains. The tunnel, which is 100 feet long, has solid walls of coal on either side, and there are still 150 feet of coal or four hundred feet of tunnel have caved in. One of the incendiaries have been apprehended, as he was a member of the legislature, and cannot be identified.

The railroad company has been ordered to make the tunnel safe for the passage of trains and against life.

A FINE WATCH.

An Atlanta-Made Time Piece that Cost \$1,200.

A CONSTITUTION man was shown a day or two since a watch made in Atlanta as fine as any ever seen in the city. It was made at the Stevens factory, and cost \$1,200. Very few watches are made in this country worth that amount of money, and this is a special credit to Atlanta and to the skill of the watch factory to be able to produce such a time-keeper.

There were sixteen solitaires around the front, each weighing nearly three-quarters of a carat. The watch is a microcosm worked in diamonds; this number of diamonds, stones, aggregating over six rats of diamonds.

There are seven-fourth stones in the whole watch, and the watch is made of gold, and is a fine watch. It is the finest watch in the south. It was made to order for an Atlanta gentleman.

HIS WISH COMPLIED WITH.

old Confederate Buried Beneath the Waves of the Gulf.

WALSTON, January 3.—The remains of Col. Terry Brewster, late state commissioner of finance, arrived here from Austin and were buried in accordance with his dying request. Col. Brewster served at San Jacinto, was an adjutant general of Texas, and was chief of staff under General Alpheus Sydenham Johnston in the late war. He passed his life on land but was largely inured with a desire to be buried at sea. He first made known his present desire to this his bosom friend, Mr. John M. Calvert, and Calvert then told him to go to the altar a second time.

THE SWAIN COURT MARTIAL.

An Acrimonious Wrangle Between the Counsel on Both Sides.

WASHINGTON, January 3.—The Swain court martial this morning were enlivened at the outset by a long and acrimonious wrangle between the counsel, in which much unpleasantness had been developed at times as the case progressed. The court, however, seemed to be in agreement in the main, and the defense was to be directed to one argument, or else that the prosecution be directed to state their case in opening and be allowed the closing argument.

BILL IN EQUITY.

The Philadelphia and Reading Railroad in Trouble.

PHILADELPHIA, Jan. 3.—John C. Bullock and C. D. Dale, on behalf of Robinson & New York, filed a bill in equity yesterday in the U. S. Circuit Court at Philadelphia, providing for a foreclosure of the Philadelphia and Reading railroad company under the general mortgage loan.

Robinson owned five bonds, but the action was instituted by the Fidelity Insurance Trust and Safe Deposit company, trustees of the general mortgage. It was the object, he said, to force the railroad to pay the debts.
